5.2 Only registered trainers may edit their own profile.

5.3 Trainers profiles are visible to all users. (registered or not registered)

5.4 Each trainer has a maximum capacity of assigned members to ensure quality of service.

5.5 Trainers and members can communicate only through the system's internal messaging feature to ensure privacy and record – keeping.

6. Payments and future billings :

6.1 Users pay a registration fee when signing up.

6.2 All package purchases must be recorded in the billing system.

6.3 Users should receive a email when registration was successful.

6.4 Admin may generate and review billing reports.

7. Admin Controls :

7.1 Only administrators are allowed to add and update or even delete members accounts.

7.2 Only administrators may update packages , courses or trainers details.

7.3 Administrators have enhanced privileges on their accounts.

7.4 All changes made by administrators must be logged for audit purposes.

8. System Management

8.1 The System must store all user and membership information in the database.

8.2 The System must back up data regular to prevent risk of losing all data.

ERD Diagam:

courses — each course available on the site. Links to the trainer who runs it and stores title, description and difficulty. When a user gets a package they gain access to courses. This is the container that training plans live inside.

enrollments — records which user is enrolled in which course. Created when a user selects a course, and updated when they complete it.

training_plans — now lives inside a course via course_id. Each course can have one or more training plans. Stores the title, description and how many days the plan runs.

plan_days — each individual day within a plan. Has a day number, description of what to do that day, and an image to guide the exercise.

exercises — the specific exercises within a day. Each has a name, sets and reps. A day can have multiple exercises.

plan_progress — tracks how far a user has gotten through a specific plan so the site knows where to resume them.
